

Boot Camp Testimonials

Here are some testimonials from recent boot campers, several of which passed their CIRCC Exam.

- *Stacie Buck is a wonderful speaker and highly experienced instructor in Radiology. She is entertaining and keeps the audience interested in learning. While I have attended one of her IR seminars before, the boot camp still provided new learning material and resources that helped reveal and solve some prior incorrect coding at my workplace. I am confident that her instruction will allow me to pass the CIRCC exam with flying colors. I will always recommend any courses/webinars/conferences in which she will be instructing and speaking. Thank you for another excellent presentation, Stacie!*
- *I found the RadRx VIP Boot Camp Webinar to be a convenient and comprehensive course that will help prepare you for the CIRCC exam. Stacie Buck's expertise in the area of interventional radiology and cardiology coding was evident in her explanations of basic and more advanced coding scenarios and case studies and in her knowledge of coding rules and CMS guidelines. The course materials were easy to follow whether you are a beginner or have years of experience in IR coding. I would recommend this boot camp to anyone who is planning on taking the CIRCC exam.*
- *Stacie's boot camp was great. She provided education, coding scenarios, and case studies to give us hands on experience. I would definitely recommend her boot camp to other coders.*
- *Stacie is a great instructor. She presented the course material in a logical and orderly fashion. The classes are recorded, so you can review all IR topics presented, until you master the content. The class examples, homework and case studies were well documented and allowed for lots of practical experience.*
- *Stacie was an excellent instructor and extremely knowledgeable of the material.*
- *This boot camp was very practical information for IR coding. It helped me feel prepared to take the CIRCC exam.*
